

Project Demo Planning

Date	30 June 2026
Team ID	XXXXXX
Project Name	Rising Waters: A Machine Learning Approach to Flood Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project and objectives	2	Ariveti Venkata Harshitha
2	Problem Statement	Explain flood prediction challenges	2	Jaswanth Tangudu
3	Solution Overview	Describe ML model and system architecture	3	Mounica Teketi
4	Live Demonstration	Show Home, Predict, Result and About pages	5	Srinu Buridi
5	Model Performance	Present XGBoost results and evaluation metrics	2	Sathi Geetha Reddy
6	Future Scope & Conclusion	Discuss enhancements and conclude	1	Jaswanth Tangudu

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for flood prediction and project objectives.

2	Solution Overview	Present the dataset, XGBoost model, Flask application and system workflow.
3	Live Feature Demonstration	Demonstrate Home, Prediction, Result and About pages with real-time prediction.
4	Q&A Session	Answer evaluator questions and explain future enhancements.
